

AESG's Quality Management System Statement

Australian Essential Services Group (AESG) provides Essential Safety Measures related services to the Managed Property Industry across Australia.

The fundamental purpose of Essential Safety Measures installed in buildings is to protect the well-being of the occupants and their visitors in the event of an emergency. AESG will deliver its services to ensure the effective performance of a building's Essential Safety Measures.

All AESG staff are committed to adhering to the legislation, regulations and standards that govern the industry and to fulfilling AESG's duty of care to the public and its customers.

AESG's Quality Management System ensures that the highest levels of customer service and satisfaction will apply to the services we deliver to all of our customers across our entire product-offering portfolio:

- Essential Safety Measures Auditing and Reporting
- Essential Safety Measures Consulting
- Essential Safety Measures Maintenance
- Occupational Health and Safety Inspection and Reporting
- Customised Policy and Procedures Auditing and Reporting

AESG's Quality Management System is subject to continuous review and improvement.
